

CalorieScan

Privacy Policy

Effective Date: 27 May 2026

CalorieScan is not a medical application. Nothing in this app constitutes health, dietary, or medical advice. Always consult a qualified doctor or registered health professional before making changes to your diet or lifestyle.

1. Introduction

Welcome to CalorieScan. We are committed to protecting your personal information and your right to privacy. This Privacy Policy explains what information we collect, how we use it, and what rights you have in relation to it. By using CalorieScan you agree to the collection and use of information in accordance with this policy.

2. Information We Collect

2.1 Information You Provide

We collect information you voluntarily provide when setting up your profile, including your name, age, gender, height, weight, goal weight, activity level, and calorie goals. This information is stored locally on your device and is not transmitted to our servers unless explicitly stated.

2.2 Food and Nutrition Data

When you scan food or enter food descriptions, the image or text is sent to our Google Cloud Function endpoints and processed by Google Gemini AI to generate nutritional information. Images are temporarily stored in Firebase Storage during processing and deleted immediately after analysis is complete. Nutrition results are stored locally on your device only.

2.3 Automatically Collected Information

We may collect certain information automatically, including device type, operating system version, app version, and crash reports. This data is used solely to improve app stability and performance.

2.4 Purchase Information

In-app purchases are processed by Apple App Store or Google Play Store. We use RevenueCat to manage subscription status. We do not store payment card details.

3. How We Use Your Information

We use the information we collect to:

- Provide and maintain the CalorieScan service
- Calculate personalised daily calorie and macro targets
- Process food images and generate nutritional estimates via AI
- Manage your subscription and token balance
- Improve app performance and fix bugs
- Comply with legal obligations

4. Data Storage and Security

All personal profile data, nutrition history, and weight logs are stored locally on your device and are not uploaded to any server. We implement industry-standard security measures including encrypted transmission (HTTPS/TLS) for all API calls. No method of transmission over the Internet is 100% secure.

5. Third-Party Services

CalorieScan integrates the following third-party services:

- Google Firebase (Cloud Functions, Storage) — firebase.google.com/support/privacy
- Google Gemini AI — ai.google.dev/terms
- RevenueCat — revenuecat.com/privacy
- Apple App Store / Google Play Store

6. Children's Privacy

CalorieScan is not directed at children under the age of 13. We do not knowingly collect personal information from children under 13. If you believe your child has provided us with personal information, please contact us and we will delete it.

7. Your Rights

You may access, correct, or delete personal data stored on your device at any time by clearing the app data or uninstalling the application. For data held by third-party services, refer to their respective privacy policies.

8. Changes to This Policy

We may update this Privacy Policy from time to time. We will notify you of any changes by updating the Effective Date. Your continued use of the app constitutes acceptance of the updated policy.

9. Contact Us
